

# Home learning tasks for Reception

Remember to try and read as much as possible. This could include reading signs whilst out on walks, reading recipe books if baking, reading books and magazines you have at home.

Please read to your child as well as encouraging them to read to you.

## Maths

This week, focus on finding one more and one less - getting the children familiar with which number come before and after a given number to 10 then to 20.

Here are some ways to implement finding one more and one less:

- You could use a dice, roll it and encourage the children to tell you one more or one less than the number.
- Write out a number line 1-20, point to a number and ask the children to tell you one more or less.

1	2	3	4	5	6	7	8	9	10
11	12	13	14	15	16	17	18	19	20

- Create missing number strips - get the children to fill them in looking at one more and on less than numbers to 10 then 20.
- Write numbers on paper cups, plates or anything you wish and get the children to peg 1 less or more pegs onto it.

ar

the 'ar' sound

Action

Open your mouth, and say ah!

## Literacy

### Handwriting

Practise the Zigzag monster letters- look carefully at how they are formed before having a go yourself. What words have these letters in them?

### Keywords

are, they

Lets get creative - using all the tricky words we have already sent home, could you create a chalk hopscotch outside. When you jump on a word, you need to say the tricky words in funny voices. Can you spot any of the tricky words while you are reading? How many in the book of the same word?

### Phonics

oo, OO, ar

Can you find these in your books? Have a go at writing words with them in eg. Book, zoo, car. Challenge yourself to write a short sentence with the words in along with tricky words too.
