How long can you leave your pet alone for?

## Reception Maths Home Learning - Time

Hunt around your home and see how many clocks you can find. Can you find any other ways of measuring time in your home? Find pictures of clocks, watches in magazines. Think about why there is a clock in that part of your house.

Ask your family to play What's the Time Mr Wolf? One person stands with their back to the group and everyone else asks "what's the time Mr. Wolf?" Mr. Wolf says a time e.g. 4 o'clock and everyone steps forward 4 steps. Continue with different times until Mr. Wolf says dinnertime! He chases everyone back to the start.

Look at the numbers on a clock and their position. Practise telling the time. Start with o'clock times first before moving onto half past times if your child is ready to.

Make your own clock using a paper plate or by cutting a circle out of cardboard. Use a real clock to help you write the numbers in the correct place.

As your child to show you o'clock times on their clock or you could show them time for them to read.

Practise saying the days of the week in the correct order. What day is it today? What day was it yesterday? What day will it be tomorrow?

Learn the days of the week through songs. See the links below.
